

Spanish after school program

Bienvenidos a **“Living Spanish”**.

My name is Natalia de la Chica, founder of Living Spanish organization. I would like to give you a brief description of the Spanish Enrichment Program at Nixon School. This study program is developed especially for children. All teachers are native speaker and experienced instructors, who follow a developmentally correct curriculum.

Because we are introducing this new language at a very early age, we make sure we keep the learning process fun and creative using games and interactive activities. Younger learners develop their receptive skills much faster than their productive skills. This is important to keep in mind, if we are creating the basis for a more profound study of the language in the future. Our approach encourages spontaneous language production; it helps kids develop the ability to use the language in a proper and meaningful context, much in the same way that they learn their own language.

Parents club

Experience has shown that parents' involvement is an important aspect of successful enrichment programs. Living Spanish now offers classes for parents who are interested in learning Spanish, and who will be able to support their children's effort in this language. Additional information is available at www.livingspanish.org.

Private classes

Living Spanish is also offering private Spanish classes at our new language center, Learnika, located at College Ave. (five minutes drive from Nixon campus). Please contact Natalia de la Chica at nataliad@gmail.com for further information.
